SESSION 2: ADOLESCENT IDIOPATHIC SCOLIOSIS II  
**SESSION EVALUATION**

**Q.** Please provide general comments about the session and how it might be improved.

Email	Responses
Anonymous	Excellent papers
Anonymous	Interesting
Anonymous	Excellent
Anonymous	Overall good papers that will change clinical practice
Anonymous	Some of the communications are no relation with the abstrac
Anonymous	Great session
Anonymous	Good format
Anonymous	Purely surgical Not useful for osteopathic approach and understanding
Anonymous	Concerned about the rapidity or lack of industry disclosures especially with the study advocating a new shielding device for Pedicle screws. This is essentially industry research and while it may be true and valid, people should know that.
